REMARKS

1. On 20 and 21 May 1954, 8 canvas-covered barrels of tank guns and 10 trucks were observed at the garage southeast of the Bruck on the Leitha River (P 43/X 77) railroad station. Only little activity was observed at the installation. No motor vehicle traffic was seen. Soviet dependents were observed at the camp in the woods which was guarded by a sentry with red-bordered black epaulets. Vehicle traffic at the installation included sedan driven by a soldier with black-bordered red epaulets; trucks driven by soldiers wearing red-bordered black epaulets with tank insignia; and jeep and trucks driven by soldiers with red-bordered black epaulets.

2. On 22 May, only a guard detail and an tank were seen at the barracks installation at Kagran (P 49/X 49). 2

3. On 17 May the 15th Gds Mech Div was commanded by a Major General Okhman (fnu). 3

1. Comment. The bulk of the 15th Gds Tank Regt stationed at Bruck on the Leitha River probably moved to the summer camp on the Doellersheim troop training grounds.

2. Comment. The 106th Gds Hv Tank SP Regt from Kagran probably also transferred to the summer camp on the Doellersheim troop training grounds.

3. Comment. The 13th Gds Mech Div has been commanded for several years by Major General Bobruk (fnu). It is possible that Major General Okhman (fnu) may have succeeded Major General Bobruk.
